I

1

**Is the App designed for
Business Central?**

Or robust integration to
BC?

I

2

How well is the app documented?

Research support and documentation

I

3

The Pricing Model

Per User? All Users? Per Environment? Band? Resource Usage?

I

4

Will it work for your Business Central Deployment?

SaaS? On-Prem? ISV
Embed Program?
Middleware?

I

5

Steer Clear of “Free” Apps / level

Understand the
limitations

I
